Contents

06 SPARK
06 Top Projects
Beautiful amalgamations of metal and plastic
16 Objekt 3d’art
All the best bits of a computer, with none of the bad
18 Letters
What’s piqued your ire this month?

06 LENS
22 Summer Projects
Improve the outside world with data
32 How I Made: PicoCray
Cluster Raspberry Pi Picos and make pretty patterns
40 Interview: Uri Tuchman
Detail, hard tools, craftsmanship, and a love for the past

06 FORGE
49 SoM KiCad
Makers, Assemble!
56 Tutorial Recycling PLA
Unleash the laser cutter!
60 Tutorial Inputs and outputs
Get connected to the physical world
66 Tutorial Bluetooth
Get to grips with Bluetooth on Pico W
72 Tutorial Retro gaming
Turn an Atari ST into a vintage games controller
78 Tutorial Picture frames
Decorate your dwelling place with scrap wood

21 Cover Feature
SUMMER PROJECTS
Make the outside world SMARTER

22 Tutorial Retro gaming
Breathe new life (and old games) into a dusty old Atari ST

22 FIELD TEST
85 Best of Breed
Displays: still the best way of getting data into your eyes
92 Review Arduino Uno R4
The Model T Ford of microcontrollers gets an upgrade
96 Crowdfunding Shaper Trace
Accurately sized CNC images taken from photos

Some of the tools and techniques shown in HackSpace Magazine are dangerous unless used with skill, experience and appropriate personal protective equipment. While we attempt to guide the reader, ultimately you are responsible for your own safety and understanding the limits of yourself and your equipment. HackSpace Magazine is intended for an adult audience and some projects may be dangerous unless used by skilled, experienced practitioners. You are entirely at your own discretion and risk when using these tools. While HackSpace Magazine may publish projects or ideas contributed by others, you should always test the ideas and tools before using them. You should be aware that some projects and ideas may be dangerous or illegal. You are responsible for ensuring that you comply with any relevant laws and regulations. Raspberry Pi Ltd does not accept responsibility for any injuries, damage to equipment, or costs incurred from projects, tutorials or suggestions in HackSpace Magazine. Laws and regulations covering many of the topics in HackSpace Magazine are different between countries, and are always subject to change. You are responsible for understanding the requirements in your jurisdiction and ensuring that you comply with them. Some manufacturers place limits on the use of their hardware which some projects or suggestions in HackSpace Magazine may go beyond. It is your responsibility to understand the manufacturer’s limits.
